DETAILED ACTION

The amendment filed 05/17/2007 has been received and considered. Claims 8-22 are presented for examination.

Election/Restrictions

Newly submitted claims 8-22 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claims are directed to a scanning device system while the invention originally claimed are directed to a system for generating an electronic model for a dental impression.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 8-22 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on 05/17/2007 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because it changes the scope of invention, and presenting claims are drawn to the nonelected invention. More specifically, the claims are directed to a scanning device system while the invention originally claimed are directed to a system for generating an electronic model for a dental impression.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is

longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
